

Consolidated Insurance Agencies

This is to certify that Consolidated Insurance Agencies has purchased a Greenfleet future offset to sequester greenhouse gas.

Greenfleet will plant 74 native trees to establish a biodiverse forest and offset 20 tonnes of greenhouse gas generated by Consolidated Insurance Agencies from September 2009 to August 2010.

As well as offsetting greenhouse gas, this action is helping to improve water quality, reduce soil degradation and provide essential habitat for native species.
